ABOUT

Hi, I'm a Product Designer & Mentor with over 6+ years of experience in creating user-centric digital products & experiences. I excel in fast-paced environments and thrive on collaborating with diverse teams to deliver seamless and memorable user experiences that align with business objectives and foster long-term user engagement. I bring a unique blend of design and technical expertise to every project.

EXPERIENCE

School of Techies Design Mentor

Chennai

Dec 2022 — Present

Guiding aspiring designers in mastering design principles, UX/UI techniques, and industry-standard tools.

MakeO Product Designer

Mumbai (Remote)

June 2021 — October 2022

MakeO is a clinical-beauty brand that helps customers to look and feel better. I helped the team to build products across different verticals from customer website, eCommerce to backend softwares like CRM, CMS, etc.

Maximl Product Designer

IITM, Chennai

September 2019 — February 2021

Maximl provides project management solutions specifically for Deskless workers. I helped the folks to ideate, build, and ship better product features at a rapid pace through a lean design process.

Accenture PMO

Gateway IT Park, Chennai

March 2017 — May 2018

Managed operations for Accenture's MyWizard, an AI-driven automation tool enhancing human-machine collaboration to boost software development efficiency.

EDUCATION

UX/UI Design

2018 — 2019 WEB D School

B.C.A Computer Applications

2013 — 2016 Asan Memorial College
